WORK EXPERIENCE

Full Stack Developer (Intern)   (April 2024 - Present)
Humanli.ai – Jaipur, Rajasthan

Developing engaging frontend interfaces using **Angular, Tailwind CSS and bootstrap** for intuitive user experiences. Working on **Firebase, Flask and Google Cloud** to architect robust backend systems supporting **AI-based web applications**. Actively engaging with teams to discuss and implement **innovative ideas**, contributing to a dynamic and creative work environment.

SKILLS

- Frontend: **Reactjs**, **Angular**, Bootstrap, Tailwind CSS
- Backend: **Flask**, Firebase
- Database: **Firestore**
- Programming Languages: **Java**, Javascript, **Python**
- Core Subjects: Operating System, Computer Networks, **DBMS**

PROJECTS

Real-time Chat Web Application   (March 2024 - April 2024)

- Developed a real-time chat web app with **friend addition, user search, and text/photo messaging** using HTML, CSS, **Javascript, ReactJs, Firebase, and Material UI**.
- Integrated Firebase for **real-time data sync and user authentication**. Implemented intuitive UI for seamless user experience.

Disney+ Hotstar Clone   (February 2024 - March 2024)

- Build a Disney+ Hotstar clone with identical frontend design using HTML, CSS, JavaScript, **ReactJs, and React libraries including Axios and React-Icons**.
- Utilized **TMDB API for fetching movies and TV shows data**, ensuring seamless integration with the original website.

Covid Testing System   (March 2023 - June 2023)

- Engineered and deployed a comprehensive **COVID-19 testing data management website integrating user authentication, test data collection, and report tracking functionalities**.
- Utilized HTML, CSS, **ReactJs, and PHP** technologies to enhance data handling efficiency and user experience.

EDUCATION

- BE CSE | Chandigarh University, Mohali Punjab   (August 2020 - June 2024)
- XII (JKBOSE) | Boys Higher Secondary, Pulwama J&K   (March 2019 - January 2020)
- 10th (JKBOSE) | Guru Nanak Public School, Pulwama J&K   (March 20'17 - January 2018)
